

NOTICE OF INTEREST

Hartville R-II School District will be submitting an application for the Hazard Mitigation program through FEMA for the construction of a FEMA 361 Safe Room that will be located on the south side of the campus. This project is a 90% / 10% match fund wherein the School District will be responsible for 10% of the project cost. It is anticipated that the cost to the school district will be approximately \$225,000. Should you wish to discuss the School Districts submission of an application, please provide feedback at the Hartville Superintendent's Office. The School District needs as much local participation as possible in order to reflect the true desires of the community as a whole, as well as the comments relating to the proposed project application.

All citizens, including those in the targeted area, are encouraged to comment on the proposed activities.

For more information on the proposed project, contact Dr. Mark Piper at 417-741-6223.
